POSTAL REGULATORY  
COMMISSION

Dear Commissioners

I am writing to voice my concern and dissent for the proposed 10 year program outlined by the present Postmaster General, Louis DeJoy. I believe his plan would adversely affect the service to the customers of the postal system, reduce the efficiencies for the workers and systems employed by the service and, in the long run, create a privatized system that will be more costly and less effective.

The leadership of Mr. DeJoy during Fall 2020 illustrated his effectiveness when it resulted in slower mail, destruction of expensive postal sorting equipment, and restriction of work hours. His qualifications, or lack thereof, to be suggesting and implementing changes to a very unique logistical system has been questioned since his appointment. His actions adversely impacted the public during a very critical time. His ownership of a logistics and freight company makes one wonder if his suggestion to privatize the postal service may not be conflict of interest.

Please take the time to review each aspect of his plan by those more familiar with the postal system before implementing it.

Thank you for your time and consideration.

Sincerely yours,

Linda J.M. Root, Lt Col (Retired), USAF
